

# MARGUERITE CRUISES

Aitutaki

The newly established Marguerite Cruises accommodates those who are looking for a luxurious cruise in the world's most stunning lagoon. Passionate about protecting the lagoon, these tours bring a wave of excitement and magical experience as you discover the beauty of the Aitutaki lagoon.

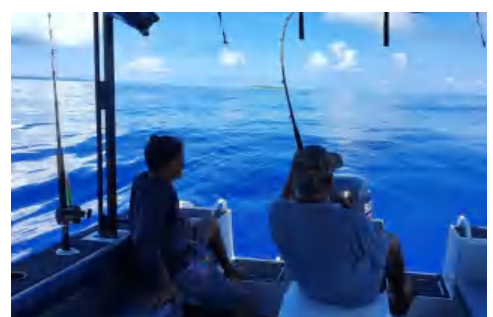

Tours operate 7 days a week and are interactive, allowing guests a personal one-on-one encounter with your tour guide. They offer Lagoon Cruises, Fishing Charters, Whale Watching Tours and Pacific Ocean Site Seeing Cruises. On each tour, you are promised to experience the incredible sea and marine life.

The Lagoon Cruise is an educational tour that provides you knowledge on Aitutaki's marine conservation by our friendly guides, and taken to some of the island's best snorkelling and swimming locations.

The Fishing Charter & Pacific Ocean Site Seeing Cruises charter further out from the lagoon, allowing you spectacular views of the oceanic species including tuna, wahoo and marlin. See the breath-taking views of the islets (motu) and the main island from over the reef - a view like no other.

Whale Watching is also a thrilling experience when in season. From July to November, there is a high likelihood of encounter by these colossal creatures.

Some of the luxuries and comforts on board include side door entry allowing easy access on-and-off the boat, comfortable upholstered seating and side tables for guests to enjoy a meal with a magnificent view of the lagoon.
